PROFILE SUMMARY

Recent Computer Science graduate with 1 year of internship experience in data analysis. Proficient in Python, Pandas, and Excel. Familiar with basic SQL queries and Tableau dashboards. Completed an academic machine-learning project and eager to grow in a data-science role.

EXPERIENCE

Data Analyst Intern

Jul 2023 – Jun 2024

Capgemini India, Delhi

- Cleaned and transformed datasets (10 k–50 k rows) using Python (Pandas) and Excel, supporting weekly sales reports.
- Created basic Tableau dashboards for the marketing team to visualise campaign performance metrics.
- Wrote simple SQL SELECT queries to extract data from MySQL database for ad-hoc reporting tasks.
- Assisted senior analysts in preparing PowerPoint presentations for management review meetings.

ACADEMIC PROJECT

House Price Prediction (B.Tech Final Year Project) — Applied Linear Regression and Decision Tree models using Scikit-learn on the Boston Housing dataset. Achieved R^2 of 0.78 on the test set. Presented findings in a Jupyter Notebook with Matplotlib visualisations.

TECHNICAL SKILLS

Programming:	Python (intermediate), basic SQL
