Billing, Payments & Subscription Support Guide

Internal Reference v1.8 | Reviewed: April 2025

This document is the authoritative reference for all billing, payment, subscription, and invoice-related queries. Support agents and customers may both reference this guide. For account-specific issues, always verify identity before sharing billing details.

1. Accepted Payment Methods

Payment Type	Supported	Notes
Visa / Mastercard / Amex	Yes	All regions
PayPal	Yes	US, EU, AU, CA
Apple Pay / Google Pay	Yes	Mobile app only
Bank Transfer (ACH)	Yes	US only, 3–5 day processing
Cryptocurrency	No	Not currently supported
Purchase Orders (B2B)	Yes	Enterprise plans only
Gift Cards	Yes	TechSupport Co. gift cards only

2. Subscription Plans & Billing Cycles

TechSupport Co. offers three subscription tiers, each available on monthly or annual billing cycles. Annual plans include a **20% discount** compared to monthly billing.

Plan	Monthly Price	Annual Price	Features
Starter	\$19/month	\$182/year	Up to 3 users, basic support
Professional	\$49/month	\$470/year	Up to 20 users, priority support
Enterprise	\$149/month	\$1,430/year	Unlimited users, dedicated manager

Billing Date: Subscriptions are billed on the same calendar day each month (or annually). If the billing date falls on a weekend or holiday, charges are processed the next business day.

3. Duplicate & Incorrect Charges

Duplicate charges are taken extremely seriously. If a customer reports being charged twice for the same transaction, support agents must:

- Verify the customer's identity by confirming registered email and last 4 digits of payment card.
- Pull up transaction history in the billing admin panel (Admin > Billing > Transactions).
- Confirm whether two separate charges exist with the same amount and close timestamps.
- If duplicate confirmed: issue an immediate full refund for the duplicate charge — no manager approval required.
- If unclear: escalate to the Billing Department with the ticket ID and transaction references.
- Notify the customer via email once the duplicate refund is processed (typically within 24 hours).

Important: A customer reporting 'charged twice' and 'wanting a manager' should have their ticket automatically escalated to a senior billing agent. This is a high-priority escalation trigger.

4. Invoices, Receipts & Tax Documents

Downloading Invoices:

- Log in to your account at app.techsupportco.com.
- Navigate to Settings > Billing > Invoice History.
- Select the billing period and click 'Download PDF'.
- VAT/GST invoices are available for registered business accounts.

Tax Exemption:

Qualifying non-profit and educational organisations may apply for tax exemption status. Submit a valid exemption certificate to billing@techsupportco.com. Once approved, future invoices will automatically exclude applicable taxes.

5. Subscription Cancellation Policy

Customers may cancel their subscription at any time from the account settings. Key cancellation rules:

Scenario	Outcome	Refund?
Cancel within 7 days of renewal	Full refund of renewal charge	Yes — automatic
Cancel mid-cycle (monthly)	Access until end of period	No prorated refund
Cancel mid-cycle (annual)	Prorated refund for unused months	Yes — requires request
Cancel due to price increase (60 days notice)	Full refund of last charge	Yes — automatic
Account terminated (ToS violation)	No refund	No

6. Failed Payments & Account Suspension

When a payment fails, TechSupport Co. follows a **3-attempt retry schedule**:

Attempt	Timing	Customer Notified?
---------	--------	--------------------

1st attempt	Day of billing date	Email notification
2nd attempt	3 days later	Email + in-app banner
3rd attempt	7 days later	Email + SMS warning
Account suspended	10 days after original date	Email + phone call

Customers have **30 days** from suspension to settle outstanding balances and reactivate their account without losing data. After 30 days, accounts are archived and data recovery may incur fees.

7. Billing Escalation Matrix

Issue Type	Escalation Level	Target Resolution
Duplicate charge confirmed	Tier 1 (auto-refund)	24 hours
Charge dispute (unclear)	Tier 2 — Billing Dept.	3 business days
Refund outside 30 days	Tier 2 — Manager approval	5 business days
Fraudulent charge reported	Tier 3 — Security team	1 business day
Large account dispute (>\$500)	Tier 3 — Director level	2 business days
Legal/regulatory complaint	Tier 4 — Legal team	5 business days
